Foiling Ribs TO EXHIBIT AT THE 48th ANNUAL NEWPORT INTERNATIONAL BOAT SHOW (Newport, RI -- September 2018)

-

Foiling Ribs, exclusive HYSUCAT USA dealer, will be displaying the HYSUCAT 28 and 23 RIBs (Rigid Inflatable Boats) at one of the largest in-water boat shows in the world, the 48th Annual Newport International Boat Show in downtown Newport, RI, September 13-16, 2018.

Started in 1992, HYSUCAT recently opened its first USA-based manufacturing plant. HYSUCAT's name is a composition of the words 'hydrofoil supported catamaran'. On display as part of the Newport for New Products program is the HYSUCAT FR28 by Foiling Ribs. The foils are flush with the hulls, and produce a smooth "floating" ride while nearly doubling efficiency.

"Helping people enjoy the marine environment better is an important part of our mission each year," stated Mike Quaglio of Foiling Ribs. There are three main benefits of owning a Foiling Rib. First, the foils enhance performance resulting in a 40% reduction in engine horsepower which equates to increased fuel efficiency. Imagine having to gas up the boat half as frequently! Secondly, since the boat is an advanced catamaran hull and the foils raise most of the boat above the water, these powercats produce a minimal wake which reduces environmental impact. And finally, the fluid dynamics result in an effortless feeling as the boat swiftly cuts through the tops of waves. Twin 115hp engines traveling at 25knots have 250 miles range with 60 gallons of gas, and can travel above 50mph at full speed.

As seen in the special insert in the September issues of *Cruising World*, *Sailing World* and *Yachting Magazine*, Foiling Ribs is a candidate for Newport for New Products (NFNP) and Green Product Award at the 48th Annual Newport International Boat Show.

Foiling Ribs HYSUCAT will be displaying on Dock S4 at the Newport International Boat Show. Come visit between 10 AM to 6 PM on September 13-16, 2018. www.foilingribs.com 855-4-FOILING
