**2024 EXHIBITOR ELECTRICAL REQUEST FORM**  
BOOTH, TENT OR LAND DISPLAYS

EMAIL THIS FORM TO NIBS OFFICE:

Email to: [NIBSOffice@informa.com](mailto:NIBSOffice@informa.com) / Phone: 401.846.1115

Electrical service at the Newport International Boat Show is provided by a temporary wiring system, therefore there is limited power available. Standard electrical service provides access to (1) 15 AMP / 120 VOLT. Exhibitors are responsible for bringing their own splitters and extension cords.

Due to a growing power demand and limited resources, we ask exhibitors with power requirements **beyond the above to contact us in advance with specific needs.** We will do everything we can to provide, if possible, the power you require. There may, however, be additional charges in certain circumstances.

**Please accurately represent your electricity needs below.** Failure to do so may result in not obtaining the power you require. **This form is due no later than August 18, 2024.** Forms received after this date may greatly decrease our ability to meet your electrical needs.

Company Name \_\_\_\_\_

Contact Person \_\_\_\_\_

Display Location (if known) \_\_\_\_\_

Booth, Tent or Land Display

My Display does NOT require power

15 AMP (standard 110v)

30 AMP

50 AMP

Other (Please Specify) \_\_\_\_\_

Total Wattage Demand \_\_\_\_\_

Any additional or different power requirements should be indicated on this form. Our electrician will review this list and advise us as to the feasibility. **Additional charges MAY be incurred for special power service requests.**
